Profile

Hi! I'm Gonzalo, graduated in Advertising and Public Relations and a Higher Technician in Computer Systems Management. I have more than ten years of experience in Digital Marketing. I have recently finished a Web Development Bootcamp at Ironhack.

I consider myself a versatile and responsible person, who possesses self-discipline, is deadline orientated and has the enthusiasm and ambition to complete projects to the highest standard. A quick learner who can absorb new ideas and can communicate clearly and effectively. In the future I would like to keep growing professionally as a MERN Stack JavaScript Developer.
